“

The Regents' and Chancellor's Scholarship has had a huge impact on my experience at UC Berkeley. Coming in as a first-gen and transfer student, I carried a lot of responsibility—helping my family, managing work, and trying to adjust to a completely new academic environment. This scholarship gave me financial stability and peace of mind, which allowed me to focus more on learning, coaching, and getting involved on campus instead of worrying about how I was going to cover basic expenses.”

“

Because of the Regents' and Chancellor's Scholarship, I was able to not think about tuition and focus my time on research and academics...I got to explore a lot of different options (course staffing, research, internships, fun side projects, etc.), while also meeting amazing friends who made the experience unforgettable.”
